

# Explore the Cutting-Edge of Computer Vision at ACCV 2024 Workshops: A Comprehensive Overview for Researchers and Practitioners

The Asian Conference on Computer Vision (ACCV) is one of the most prestigious computer vision conferences in the world. The 2024 edition of ACCV will be held in Singapore, and it will feature a wide range of workshops on the latest advancements in computer vision.

## Computer Vision – ACCV 2024 Workshops: 14th Asian Conference on Computer Vision, Perth, Australia, December 2–6, 2024, Revised Selected Papers (Lecture Notes in Computer Science Book 11367)

This article provides a comprehensive overview of the ACCV 2024 workshops. It covers the topics of each workshop, the submission guidelines, and the key deadlines. Researchers and practitioners in the field of computer vision are encouraged to read this article to find out about the latest trends in the field and to identify potential opportunities for collaboration.

## **Workshop Topics**

The ACCV 2024 workshops will cover a wide range of topics in computer vision, including:

- Image classification and recognition
- Object detection and tracking
- Video analysis and understanding
- Machine learning for computer vision
- Applications of computer vision

## **Submission Guidelines**

The submission guidelines for the ACCV 2024 workshops can be found on the conference website. In general, submissions should be no more than 6 pages in length and should be formatted in the IEEE conference style.

## **Key Deadlines**

The key deadlines for the ACCV 2024 workshops are as follows:

- Workshop proposals: March 15, 2024
- Workshop paper submissions: June 15, 2024
- Workshop paper notifications: August 15, 2024
- Workshop camera-ready submissions: September 15, 2024

The ACCV 2024 workshops provide an excellent opportunity for researchers and practitioners in the field of computer vision to learn about the latest advancements in the field and to network with other experts.

Researchers are encouraged to submit their best work to the workshops and to attend the conference to learn about the latest trends in computer vision.
